We offer two main types of the clasps: POP and SCREW. Both types of the clasps are safe and difficult to open without help. To open both types of clasps both sides of the clasps is need to be hold.

POP

SCREW

All of our amber beads are knotted between each bead. Due to this technique when bracelet or necklace breaks bead won't pour out. We offer most styles with either a POP or SCREW clasp so parents can select their favourite.

We guarantee that all our products are made of the highest quality 100% natural Baltic amber. All products provided with our quality guarantee.

So, let's take journey together and discover beauty of  
amber.

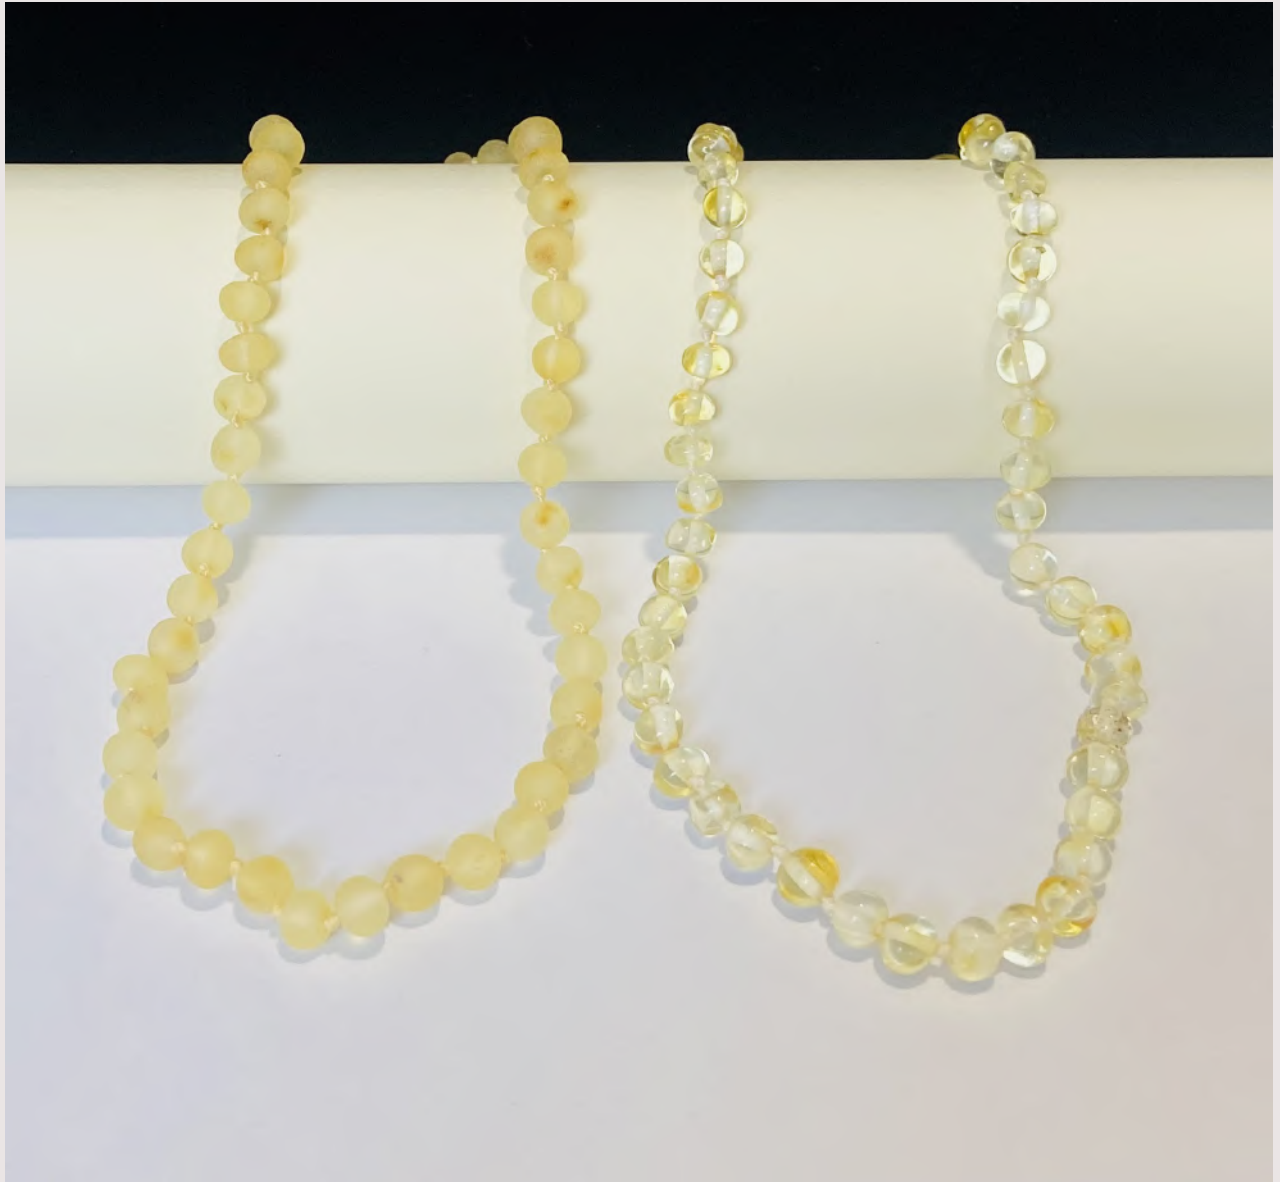

Baltic amber contains the most succinic acids of all types of amber found in the world.

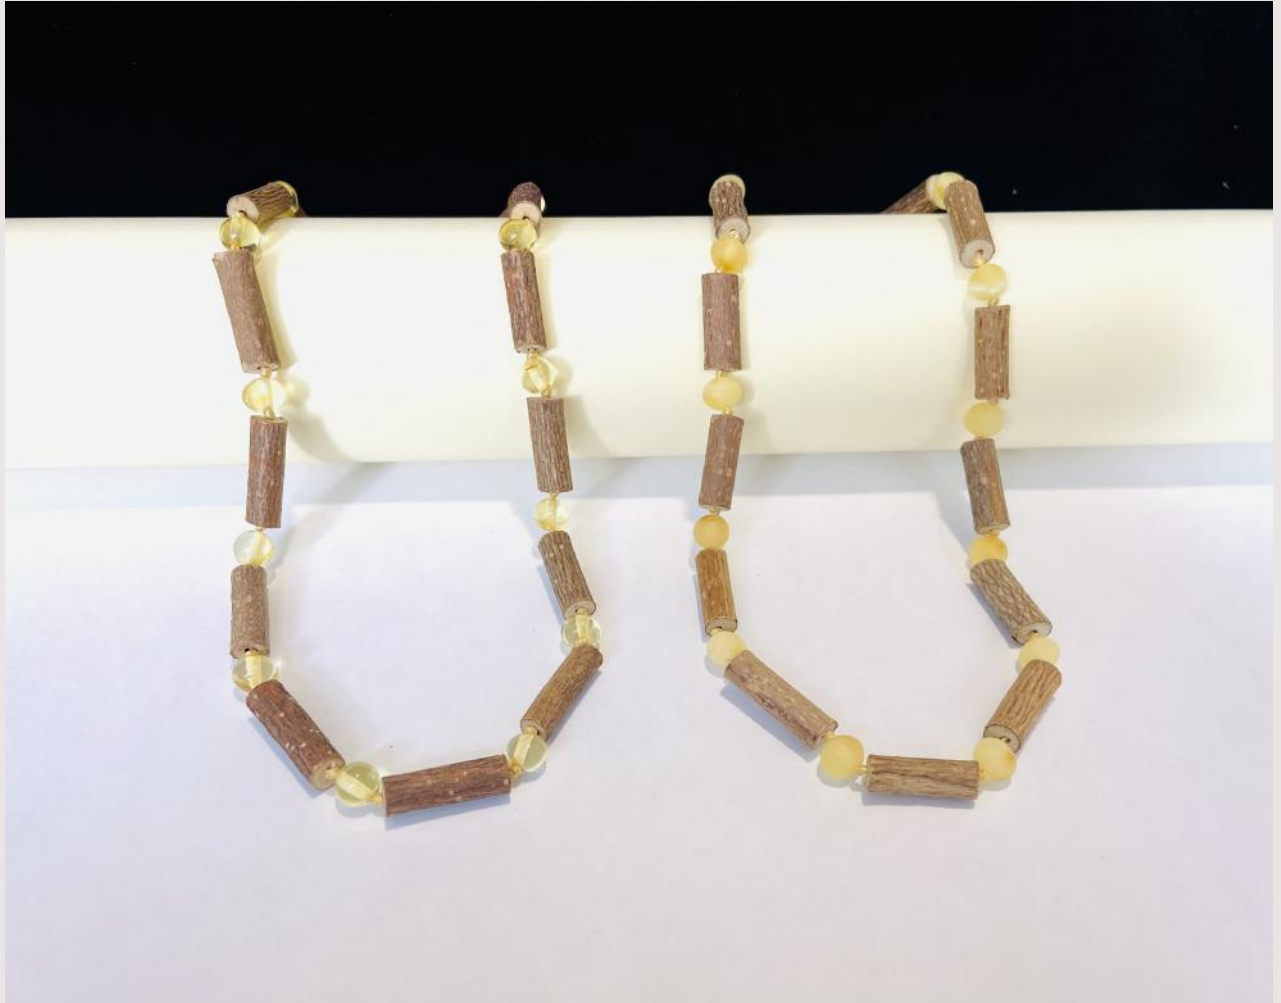

Hazelnut elongated beads and amber pieces are a wonderful duo  
looking for exclusivity.

50 million years old sunstone willingly shares with us its energy and unusual powers. It remain for us to discover it.

To obtain all the therapeutic benefit that amber provides, amber must be in direct and continuous contact with the skin as long as possible.
